CYCLONE OPENS FINE ORE BODY

Drift Has Penetrated Great Chute For Twenty Feet.

CONTRACT FOR \$30,000 PLANT LET YESTERDAY.

A ANOTHER piece of evidence showing the rapdity with which the old camp of Stockton is coming to the front appears in the latest developments at the Cyclone company's property, adjoining the Honerine, at

property, adjoining the Honerine, at Stockton.

For some time the management has been drifting through a big fissure from the 160-foot mark in the shaft, with the object of reaching a large cross-ledge some 350 feet farther back in the hill. A few days ago, at something over 210 feet out, a cross-fissure that was not expected was encountered, and on Monday, when Manager Grose got his last report, the ore body there encountered had been driven into for a distance of over twenty feet. A sample taken, not for the purpose of learning how high the ore would go, but for the purpose of getting at its minimum value, assayed 48 per cent lead, eighteen ounces silver, 3 per cent copper and \$1.80 in gold per ton.

As the drift from the shaft is being extended into the hill the depth from the surface where the strike was made is estimated to be about 200 feet. Already something like ten tons of fine was placed with Detroit talent a short ore have been taken out, but no effort. was placed with Detroit talent a short ore have been taken out, but no effort will be made to do any stoping before the principal cross-fissure is reached, as at that point a very large chute of ore was encountered in the surface workings, and there is no doubt that it goes to the deep. Arrangements are now being made to sink the shalt another 100 feet deep, when the second level will be run out to intercept the level will be run out to intercept the

The last 20,000 shares of treasury stock were placed with Detroit talent a short time ago at a good figure, and Manager Grose is positive the property can and will earn good money before the funds thus acquired have been expended.

NEW MACKINTOSH SAMPLER. Contract For a \$30,000 Plant Award-

ed Yesterday. ontract was closed yesterday with the Allis-Chalmers company through Manager H. V. Croll for the new \$30,000 sampling mill which is to replace the old Mackintosh plant at Park City. According to its terms, the new mill is to be completed within ninety days, and with that understanding conand, with that understanding, con-struction will begin the moment ma-terial, already ordered, can be laid on

the ground.

The mili is to be erected according to plans and specifications drawn by J. Breckenridge Fleming, who designed and constructed the Silver King company's magnificent plant, and many features of the latter will be included in the Mackintosh mill. It is designed to be as nearly automatic in its arrangement as possible, with a capacity of 500 tons of ore per day. It will be erected close to the old mill, which will continue to serve the Park City shippers till the new one goes into City shippers till the new one goes into

Manager Charles Read of the Mackintosh works has had the building of a new mill in contemplation for several months, and, with characteristic energy, the moment he had decided what was needed, he allowed no grass to grow under his feet till the plans were completed and the contract let. The new plant will be about the finest of its kind in the state.

EXPERTING NEVADA

I. W. Neill Left Last Night to Examine and Report on Properties.

At the instance of Simon Bamberger, James W. Neill, the well known mining engineer, left last night with a strong corps of assistants to measure up and sample the ore bodies in the De Lamar, April Fool and Magnolla properties at De Lamar, Nev. Mr. Neill's commission reads "rush," and as he has many other important matters demanding his attention, it is needless to say the injunction will be implicitly obeyed. junction will be implicitly obeyed.

It is understood that the Messrs. Bam-

berger have secured an option on Captain De Lamar's property at a good, stiff figure, and Mr. Neill's examination and report being satisfactory, it is quite probable a sale will be consummated. That all three mines named are to be included in the examination indicates

that a big company, to take them all over, is on the point of being launched.

What the plans really are, however, is not known on this end of the line by anyone at liberty to disclose them, but as Mr. Bamberger is expected home during the next few days, it is possible the will be in a position and willing to he will be in a position and willing to outline them.

PLANNING FOR HONERINE.

Power Plant, Machine Shops, Ets. Next Equipment to be Provided. On his appearance yesterday, after having gone over the property of the Honerine company at Stockton, Man-ager Willard F. Snyder stated that following the installation of the fourth

150 h. p. boiler, already ordered, plans would be prepared for buildings in which to install the proposed electric light and power plant, machine shop, carpenter shop, etc.

all this preparatory work goes to show that the Honerine company is in business to stay. With the monster ore chutes exposed in its lower workings, the management is not worrying about the final outcome, and a year hence it need surprise no one to hear that that company is not only mining a heavy tonnage, but that it is reducing its or

to bullion on the ground. UP FROM THE OPHIR.

Manager Lathrap Reports the Mill

Doing Splendid Work. Manager F. H. Lathrap came up fron the Ophir at Stateline yesterday morning, and will leave for camp again to-night. He says the new mill is now working splendidly, and that on the first of the month another clean-up will

Mr. Lathrap reports the camp to be very lively now, and looks for a good record of development at the various working properties during the season

Ore and Bullion.

Ore and bullion settlements in this city exterday amounted to \$41,800, as follows T. R. Jones & Co.—Ores, \$21,000; bullion

did Yankee Consolidated also. The former was harmered down from 55 to 51 cents and the latter was hit for a decline of 14 cents a share to \$1.26.

California was passed out in good-sized packages to the extent of 19,000 shares at prices somewhat under Tuesday's figures, while Lower Mammoth was delivered at the close for \$1.25½, a drop of over 7 cents a share since Tuesday.

Carisa declined about 1 cent and Ajax did likewise, while May Day, Boss Tweed, Silver Shield, Star Consolidated, Victor, and La Reine showed little change.

Grand Central came out to a bid of \$2.91, as against a sale at \$3 on the day before.

Uncle Sam and Ben Butler were both off a triffie, as was also Tetro, that sold at 22 cents.

The day closed on the following record.

Peter Reid superintendent of the Garden SRISK BUYING Control of the Carisa declined for \$1.25½.

Metal Market.

Silver, 51%c per ounce. Copper, 114c per pound; New York, casting, 12.15c@12.35c.. Lead, \$3.50 per 100 pounds; New York, \$4.1242.

Mining Notes.

Two cars of first-class ore from the May Day reached the market yesterday. C. D. Rooklidge has gone to Alta to start the campaign at the old Flagstaff. The New York Metal Exchange chron-cled the sale of 250,000 pounds of copper

the engine will go forward in a day or two.

His business here concluded, Colonel Treweek, manager of the Wabash, will leave for New York and Boston again today. Mrs. Treweek, who has been suffering from a compileation of ailments for some time past, will accompany him in the hope that the change will be beneficial. The colonel and Mrs. Treweek will be gone from a month to six weeks.

The Juno Mining company has filed articles of incorporation in the county clerk's office. The company is capitalized for \$106,000, divided into 25-cent shares, and owns the Jumbo and Jumbo No. I claims in the Rush Valley district, in Too-ele county. The officers of the company are Josiah Bush, president; F. B. Work, vice president; F. W. Muhlenbruck, secretary and treasurer.

The Horn Silver company reported in the market yesterday with four cars of lead-silver concentrates. Manager Farnsworth says he is not within gunshot of reaching an agreement with the American Smelting, & Refining company for the handling of Buillon-Beck and Horn Silver second-grade ores. As yet, he says, he has not been able to figure out a reduction in treatment charges.

HIS JOKE COST HER LIFE.

Junction City, Kan., May 21.—Mrs. W. G. Smoke, wife of Corporal Smoke of the Ninth artillery band stationed at Fort Riley, Kansas, died at her home here today of burns received as the result of a joke perpetrated by her husband. Mrs. Smoke had hidden in an outbuilding and in a spirit of fun locked her husband out. Smoke poured gasoline on the stone steps and lighted gasoline on the stone steps and lighted it, thinking to frighten her. The flames were drawn in under the door and enveloped Mrs. Smoke, who died several ours later in terrible agony.

LACK COW SENSE.

People Get Wilful. A cow or horse or even a dog will re-

fuse to eat or drink what the animal knows to be harmful, but mankind will persist in pouring in coffee even after having been fully assured that it is steadily killing him. Once in a while they wake up and do the sensible A lady says: "Why will people wait

as long as I did when it is so easy to save oneself the suffering caused by coffee drinking? After using coffee several years I discovered that I was breaking down nervously. I consulted

several doctors, but in spite of every-thing, steadily grew worse.
"One physician advised me to quit coffee, and I tried quitting by the use of will power, but every time it was a miserable failure. "My stomach was in dreadful shape

and I was unable to sleep at night, nervous prostration set in and I became barely able to drag about. came barely able to drag about.

"One day while visiting a minister's wife, a motherly old lady, she proposed to give me a cup of coffee, the kind she had been using three times a day for three years. So she brought out a cup of the most fragrant, delicious beverage. It was coffee, and it was not coffee. I tried it and was eager to know how it was made.

"She said: 'Five years ago I was af-

"She said: 'Five years ago I was affected much as you are, but I quit drinking coffee and began using Pos-tum Food Coffee, and that produced the result you see and restored me to health.' "She said a lot more, and when I

went home I got a box of Postum and began using it. Such a soothing effect took place and I began sleeping nights and felt a relief from my awful nervous tension. Gradually and surely I got well, and now I feel as strong and begalthy as a woman should at my age. MINING STOCK MARKET.

Con. Mercur Daily Advancing—The
Swanseas Stronger.

Trading on 'change yesterday brought out \$2,000 shares, with a selling value of \$29,183.75. Consolidated Mercur showed up strong and active at \$1.854631.90, while South Swansea recorded a gain of about 12 cent and Swansea 3 cents a share. Otherwise the market was weak and devoid of interest.

Century received another drubbing, as

Market Hardened Just Before the Last Calls.

BRISK BUYING OF COPPER

AMALGAMATED IS A FAVORITE ON THE EXCHANGE.

New York, May 21.—The tone of resistators to depression was still manifest in today's stock market, notwithstanding its dull and narrow professional character. There was not much assistance in the way of strength degived from the coal stocks either, which were dull and sluggish all day until just before the close, when prices hardened there and elsewhere in the market. Yesterday's hopes that the activities of the civic federation were promising for a settlement of the strike were somewhat dashed by the aggrieved tone taken by the coal operators toward those activities. Wall street, however, maintains its conviction that the two sides to the struggle are not very far apart and both averse to a long and costly struggle. The consequence is a constant expectation of the announcement of a settlement. The conspicuous strength of Canadian Pachfic and fits affiliated lines continued today, and was a notable influence on the whole market. The strength of the stock was junexplained beyond floor room gossip of the imminence of a corner and a revival of the reports of a strong trans-Atlantic steamship line in the interest of the line, and to be subsidized by the Canadian government. Another sustaining factor was the wide advances of stocks in the usually inactive stocks and of minor raliroad stocks available for combination and absorption. The demand for those stocks was stimulated by the details of the plan for taking over the Chicago, Indianapolis & Louisville in the joint interest of the Southern Railway and the Loudon copper market were supplemented by reports of great improvement in the London copper market were supplemented by reports of great improvement in the London copper market were supplemented by reports of great improvement in the trade. The foreign exchange market continued to show a yielding tendency in spite of the falling rate of money. This afforded relief from the apprehension that a fall in the money rate would lead to prompt exports of gold. London's hopes of an early peace in South Africa was an addi

New York, May 21.—Commercial-Advertiser's London financial cablegram says: The markets are still waiting for peace, but the tone is firm. Houses with South African connections are buying Kaffirs and consols, the latter being 1/4c up to 35. Americans were dull, but sympathetically strong. Union Pacific was good and Canadian Pacific blazing on New York and Montreal buying.

Rio Tintoes sold at 45% and copper at £55 the ton. £55 the ton.

THE METAL MARKETS.

Heavy Sales of Copper at Stiff Prices

Were Recorded.

New York, May 21.—There was another active day in copper at the New York metal exchange. The sales amounted to 250,000 pounds, including 100,000 pounds lake for August delivery at 12.37½, and 150,000 pounds electrolytic in equal lots for June. July and August delivery at 12.37½, and 12.32½. This, together with an advance of 5 shillings in the London market, caused an improvement of about %c here. Thus lake closed at 12.37½ to 12.52½ electrolytic at 12.30712.35, casting at 12.15 612.35 and standard for spot to August delivery at 11.85012.00. London closed at £55 for spot and futures.

Tin was easier here at 30.00630.05, and London was 15c lower, with spot at £125 5s.

Lead ruled steady here and unchanged at 4.12½, while London stood at £11 125 6d. Spelter was unchanged at London, closing at £18 10s, whereas the New York market was higher at 4.5564.00.

Local rion prices were steady, with warrants nominal. No. 1 foundry northern. 19.50620.56; No. 1 foundry southern, 18.50 Were Recorded. New York, May 21 .- There was another

@19.50; No. 1 foundry southern soft, 18.50 @19.50. The foreign markets were about steady. Glasgow closed at 53s 19d and Middlesboro at 49s.

GRAIN AND PROVISIONS.

Darety steady, July \$42% nigner at \$31\(\text{Mo3}\)74.

Provisions were slow and showed declines in everything on the list. Hogs were lower and started an easier market. Some support was met that stayed the decline for a time, but on the grain weakness the close was depressed. July pork closed 10c lower, lard 2\(\text{Mc}\) down and ribs \$607\(\text{Mc}\) clower.

The leading futures ranged as follows:
